BRAINSTORM

come up with three different ideas of themes + interactive features

Idea 1: Minion

Theme:

Dress-up a Minion- kind of like those paper dolls where you put the accessories and clothes on top of the minion.

Interactive JS Feature #1

When the user clicks on the play button it leads to the actual minion game

And plays DM soundtrack

Interactive JS Feature #2

When the user clicks an accessory it adds it on the minion

Reset button

Interactive JS Feature #3

When the user clicks on the “Finished!” button it will play different minion sounds.

Idea 2: Victorious TheSlap.com Mood Page

Theme

Like the show Victorious except when you click an emoji it plays a song (different one for each emoji) Or click and the text appears in its respective spot and emoji appears

Interactive JS Feature #1

Click on the pfp and text appears

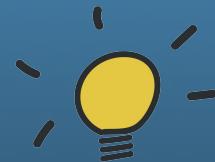

Interactive JS Feature #2

click on an emoji and a song plays

Interactive JS Feature #3

each emoji will have different songs that will connect to the vibe

Idea 3: Playlist

Theme

Create a custom playlist

Interactive JS Feature #1

Vibes

Vibe

Liyah.

⊕ 2h 14m

“**playlist**” + ...

Interactive JS Feature #2

when you click the song it will play a snippet

Interactive JS Feature #3

clicking the song would play a different part of the song each time

EVALUATE

think about the good and bad for each idea then choose one

Evaluate + Choose Your Idea

	Pros	Cons
Idea 1: Minion	Really Creative, Fun, Straight forward, minions	Would be hard to find/make the different accessories and clothing for the minions.
Idea 2: TheSlap.com	creative, simple, lots of different elements, Victorious	Not a flexible format
Idea 3: Playlist	Audio focused, simple, good 3rd js feature	Too simple aesthetically, Could do the same thing in the others but with more character

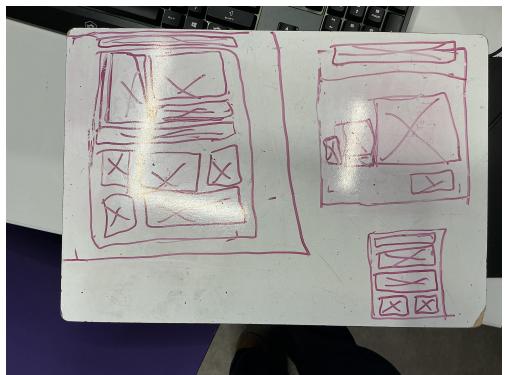

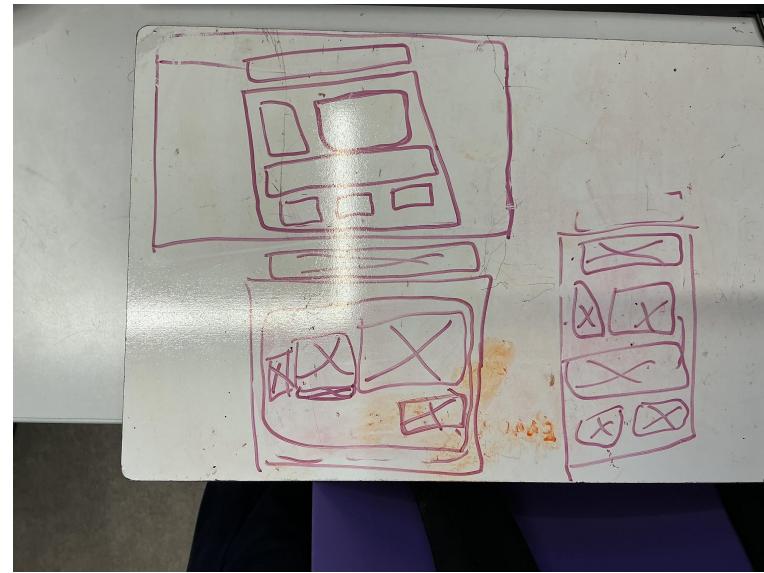

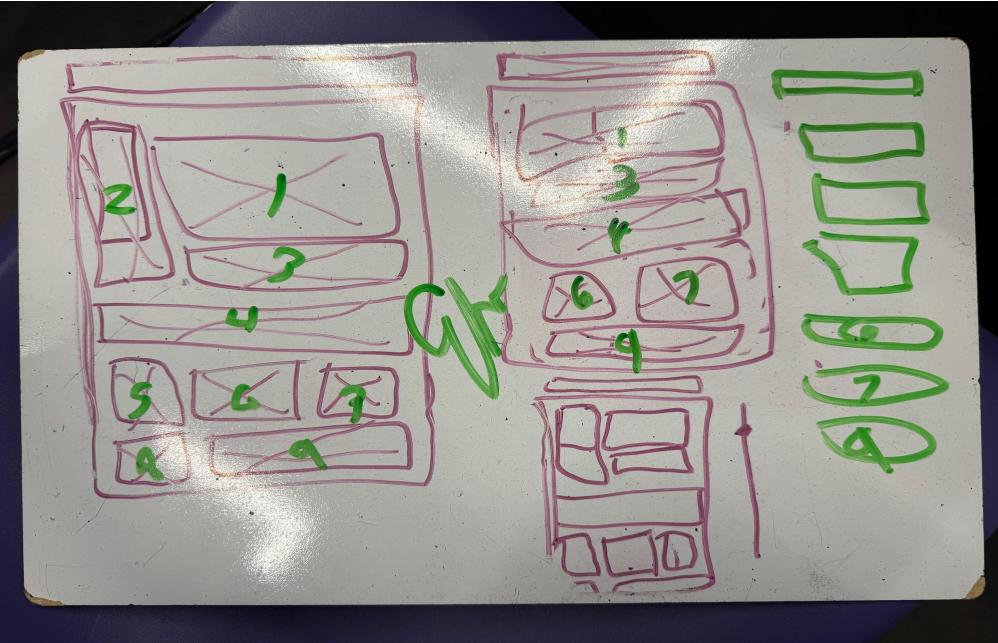

CONTENT
